The ESA Foundation, established in 1970, stands as a lasting symbol of ESA's commitment to philanthropy and education. Our mission remains clear and steady, to strengthen the philanthropic spirit of volunteers, support programs that meet human needs and create new opportunities that improve quality of life. This year, we saw that mission reflected in real, measurable progress.

First, scholarship applications have increased.

More students are seeking opportunities and recognize that our Foundation is a trusted partner in helping them pursue their dreams. Each application represents a life reaching for something better, and it is a privilege to support that journey. That growth is a powerful sign of the impact we are making.

We also focused on strengthening our endowments. Through careful stewardship and ensuring that the resources entrusted to us continue to grow, remain stable, and support our mission for generations to come.

We also enhanced the information we provide to our members. Clearer communication and better access to updates have helped everyone stay connected to our work and the lives we are touching together. When our members are informed, they are empowered and that strengthens our entire organization.

Of course, our work is never finished. As we look ahead, we remain committed to expanding our reach, deepening our partnerships, and developing new programs that respond to emerging needs. Our mission calls us to be both steady and innovative...honoring our traditions while embracing new opportunities to improve lives.

Together, we will continue to build a Foundation that uplifts, empowers, and transforms. The work we do matters, and it matters because of you...our members, volunteers, donors, and partners. Your dedication fuels our progress and makes every success possible.

Thank you for your trust and your belief in the power of what we can accomplish together. The State of our Foundation is strong, and our future is bright.
